

Presented by:

Topeka Police Department & Shawnee County Sheriff's Office

JOHN GIDUCK arrived at Beslan Middle School No. 1 in North Ossetia, Russia, at the conclusion of the battle by Russian Special Forces to retake the school. Mr. Giduck now draws from his 17 years experience of traveling, working, attending university and training with the Russian Special Forces. He spent months investigating all aspects of this attack including many interviews with the Russian Special Forces, government officials, Beslan townspeople and three trips to Russia for this purpose alone.

Mr. Giduck will present a seminar on his investigation which will cover the terrorist planning process, terrorist intelligence collection for the assault, defenses deployed, and how negotiations ultimately failed and why. The result was over 300 dead in a ten hour battle. Further, this seminar will cover the government's plan in handling the crisis, what went wrong and what was done right. Additionally, he'll present in detail, the vulnerabilities of U.S. schools to this same type of assault and necessary changes in security to protect our children.

Join us for this inside look with **John Giduck** at what occurred in Beslan and how we can help avert a Beslan incident here.
